***“Gerard is one of the most pleasant, cooperative and competent support persons I have worked with here, ever. He is very hard working, creative, on the scene whenever needed, and really knows his stuff. He cares very much about his part of a case going smoothly and well, and he takes pride in his work. ...I would take him on a new case again in a heartbeat and think he does a terrific job.***

***... thanks for your help on Friday. I was thrilled at how smoothly we pulled it off and really appreciated you being there. It is reassuring when I'm under the guy like that to have such competent and reliable people as you on the team. Thanks Jud”***

***“I thought Gerard did a fantastic job helping us prepare for and try our case in the Per-Se v. Anodyne matter. He was extremely responsive to our needs, always patient, and very knowledgeable and experienced with his multimedia equipment. I would absolutely recommend that other attorneys in the firm work with him in preparing to try large cases.”***

***...Not only was Gerard able to work from my outline, which would have been confusing to many, but he sat and stayed with me for six hours (until 9:30 or later) on***

*Friday night to make sure that every clip, every shot, was perfectly timed. I came to him with ideas on paper, and he was able to transform them (often on the fly) into a coherent, cohesive, and very persuasive presentation.*

*At the mediation, the client and the mediator could not stop talking about the strength of the presentation. In fact, the client indicated that he thought the presentation was the only reason we were able to settle the case within his very strict limits. I got the compliments, but they all belong to Gerard. ...I am a BIG fan!"*

Anna Sumner, Associate at A+B

*"Gerard exceed expectations in his contribution to a motion for summary judgment hearing that we had to prepare for earlier this year. He is committed and does excellent work. I look forward to working with him again on future projects.*

*"Gerard was a fantastic help in arranging certain logistics and equipment set-up for the arbitration in the matter of Harley v. Per-Se Technologies, Inc., et al. He was always very responsive and always flexible and willing to do whatever he could to get the job done. My experience working with him was completely positive and I wouldn't hesitate to call on him again."*
